Product Description

Shindaiwa EC741S Rear Handle Chainsaw -14"

The best-in class EC741S Cut-Off Saw features a high-torque ratio for improved cutting through thick masonry blocks and dense concrete. It's durable, user friendly design includes a four-stage air filtration system and a quick release hose adapter.

Features:

- 73.4 cc professional-grade, 2-stroke engine provides powerful performance with superior durability
 - Class-leading high-torque drive system delivers superior power for fast, precise cuts on tough materials
 - Easy starting system features a reduced-effort starter and decompression valve for hassle-free ignition
-
