### Product Description

## Shindaiwa PT262 Telescoping Shaft Power Pruner®

The PT262 Power Pruner® Pole Saw, equipped with the 80TXL cutting system, delivers reduced vibration for smooth, precise cuts. Its ergonomic design and two-stage air filter make it ideal for demanding tasks. Compatible with a 4-foot extension for maximum reach on high branches.

### Features:

- 25.4 cc professional-grade 2-stroke engine provides powerful performance with superior durability
  - Two-stage air filtration system increases cleaning capability and allows for longer maintenance intervals
  - Shaft telescopes to over 12 feet in length
-
