Product Description

Shindaiwa RS850W Spreader

The Shindaiwa RS850W 85 lb. Broadcast Spreader is explicitly designed to withstand the demands of winter use. It has a stainless steel frame for durability. Its salt-specific hopper and agitator offer effective distribution, and a 4-sided deflector controls spread. The RS850W is perfect for broadcasting rock salt and ice melt for outdoor winter maintenance all season long.

Features:

- 85 lb. large-capacity hopper
 - Designed for winter applications
 - Large hopper opening for use with bulk rock salt and ice melt
-
