Product Description

Bobcat DT18 Power Rake

DT18 Power Rake with Flail Blades, 46906183 is designed specifically for dethatching. Featuring simple height adjustment that lets you fine-tune your dethatching depth from 1" above or 7/8" below ground. It's the most productive, hassle-free way to improve lawns and boost your profitability.

FLAIL BLADES

Flail Blades consist of free swinging blades mounted to a reel, designed for power raking, breaking up thatch, and breaking up aerating cores. Not recommended for fine lawns for golf course greens.

KEY FEATURES

- Ergonomic, multi-position handle -- for different operator heights and storage
- Off-the-ground transport mode -- keeps tines off the ground when moving from job to job
- Bubble shield -- prevents thatch from building up under the deck
- Honda Engine
- DT18 Power Rake with Flail Blades, 46906183 is the equivalent of the Ryan branded Ren-O-Thin® Power Rake, 554871

Dethatching is the process of removing the layer of dead and decaying grass, roots, and debris matted between the soil and growing grass. A thatch layer of 1/2 inch or more prevents air, light and water from reaching the turf's root zone.

You should dethatch in early fall before you fertilize, or in the spring after the grass has begun to green.
